

PRESS RELEASE

Communication from the Club Phase 1 following the serious adverse events that occurred during a clinical trial in Brittany, France.

Paris, Friday 22nd January, 2016

The governing board and all of the members of the Club Phase I are joined in the pain of the families and the victims of the medical accident that occurred during the clinical trial with BIA 10-2474.

To date, the club phase 1 does not have information at its disposal that would allow us to understand the mechanism (s) that caused these adverse events and their brutal occurrence.

The Club Phase 1 is dedicated to providing the expertise of its members, working with the Health Authorities, and the specialised European partner societies, to help understand and extract any lessons to be learned; to revise, if necessary, the regulations and practices in the domain.

The association Club Phase 1 is a scientific and professional society that includes individuals involved in Translational Medicine, Clinical Pharmacology and the early clinical development stage of medical research. www.clubphase1.com
